**FREE!** CORE CURRICULUM

The entire Pulmonary Medicine section from the 14th Edition MedStudy Internal Medicine Review Core Curriculum. 76 full-color pages with all tables, diagrams, medical images, and Quick Quizzes.

**FREE!** CORE SCRIPTS FLASH CARDS

All 42 Pulmonary Medicine Core Scripts® Flash Cards and the corresponding Pulmonary section of the Core Scripts answer book. This all-new resource is a breakthrough in learning Board-focused classic disease presentations.

**FREE!** BOARD-STYLE Q&As

The complete set of IM Board-style questions and answers in Pulmonary Medicine from the 2011 edition. Over 50 Q&As from our popular self-study/self-testing exercises that are a perfect rehearsal for the ABIM Boards.

**FREE!** VIDEO WITH SYLLABUS

The complete audio-visual presentation on Pulmonary Medicine from our latest live IM Certification Board Review course. A 6½-hour presentation showing every speaker slide, plus the associated 100-page print syllabus section.

## FREE Shipping!

MedStudy now offers free standard ground shipping (2–5 day delivery) to anywhere in the 48 contiguous states. For overnight express delivery, delivery to Hawaii, Alaska, Puerto Rico, or Canada, or for delivery to other international addresses, call 1-800-841-0547 for assistance. Enter source code **AceMyExam** when ordering.

## FREE CME!

For original purchasers who buy currently accredited products or courses directly from MedStudy, *AMA PRA Category 1 Credits™* are available free of charge.

### MedStudy's CME Program

MedStudy is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

#### Target Audience

MedStudy's primary audience consists of those physicians seeking to assess, expand, and/or reinforce their knowledge and decision-making strategies in the broad fields of Internal Medicine as they prepare for their American Board of Internal Medicine (ABIM) Certification and Maintenance of Certification (MoC) Board exams.

**Note:** *AMA PRA Category 1 Credits™* may be submitted to the American Osteopathic Association (AOA) for category 2 credit. Nurses and other healthcare professionals completing MedStudy's CME activities will be issued a certificate of participation.

#### MedStudy Disclosure

MedStudy Corporation, including all of its employees, has **no** financial interest, arrangement, or affiliation with any commercial entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on patients.

*“I would not know how to improve the Core. I found the books accessible and enjoyable to pick up and start reading, even if I just had a few minutes.”*  
 — Nancy Allen, MD

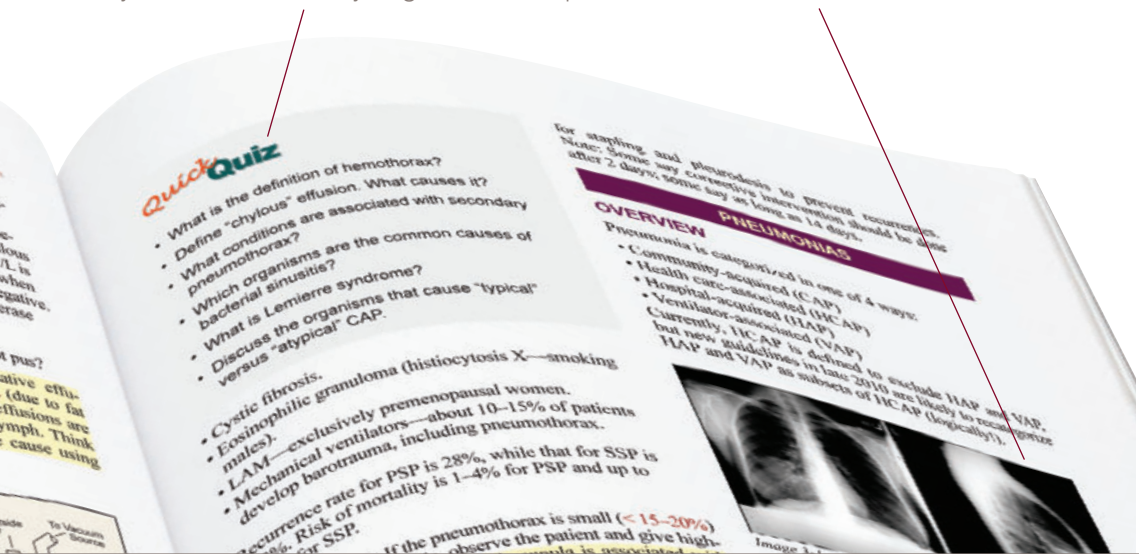

Includes 12-page StudyWise guide with insider's strategies for test-taking success

**Up to 150 AMA PRA Category 1 Credits™**  
 (See page 1 for details)  
**CME Designation Statement**  
 MedStudy designates this enduring material for a maximum of 150 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CORE CURRICULUM

**Quick Quizzes:** Short questions appear on every 2-page spread so you can self-test as you go.

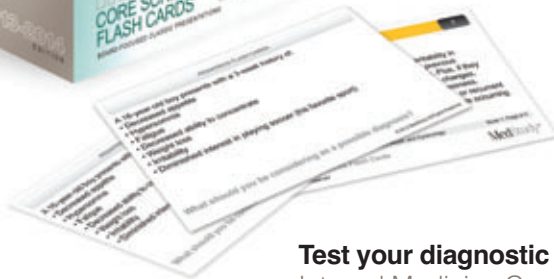

**Medical images:** Illustrated throughout with actual scans, x-rays, scopes, and photos for real-life visual clarification.

# A breakthrough memory tool

*Different from Q&As, our flash cards emphasize Board-focused classic presentations and help you commit them to memory.*

## Internal Medicine Core Scripts® Flash Cards

517 cards in a flip-top box with tabbed dividers

**\$175** includes FREE SHIPPING and CME!

### Test your diagnostic skill

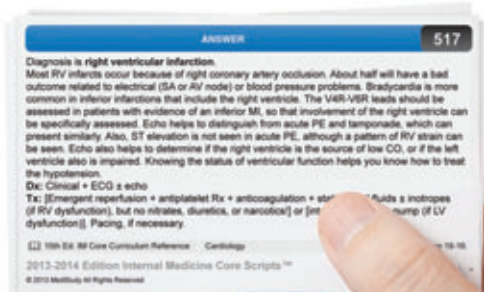

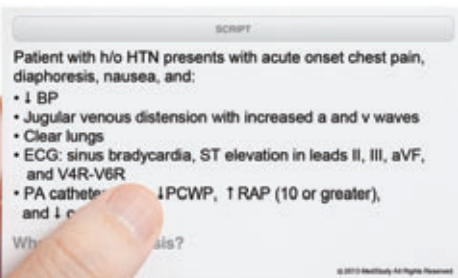

Internal Medicine Core Scripts® Flash Cards test your knowledge of classic illness presentations by providing you with complete patient problem lists and the correct diagnosis on the reverse. The perfect study bridge between Core Curriculum learning and Q&A exercises, Core Scripts® help you memorize hundreds of classic illness scripts so you can select the correct patient diagnoses on your ABIM exam.

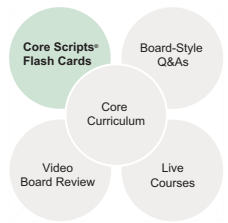

### Read and Identify

Read the presentation or illness script on the front of the card. Consider the list of symptoms, paying attention to distinguishing signs. Determine your diagnosis.

### Flip and Verify

On the back you'll find a short explanation of the correct diagnosis with clarifying details you'll need to remember for the exam.

# for exam success

## Sharpen exam readiness

- Master over 500 classic illness presentations likely to appear on your exam
- Learn to avoid common diagnostic mistakes by developing complete patient problem lists
- Enhance diagnostic precision by honing your skills
- Color-coded to provide topic-targeted or randomized study
- Page references included with every answer for easy follow-up in the Core Curriculum

**“Mastering the technique of precise diagnosis is critical for the Boards. Too often exam takers make the mistake of**

*focusing on one or two crucial elements in the clinical scenario. They fail to consider the patient’s problem list in totality or compare it to established classic illness scripts. This often leads to synthesizing the wrong diagnosis, which invariably leads to choosing the wrong answers on the exam.”*

— Candace L. Walkley, MD  
author of Internal Medicine Core Scripts Flash Cards

CORE SCRIPTS FLASH CARDS

### Up to 75 AMA PRA Category 1 Credits™

(See page 1 for details)

#### CME Designation Statement

MedStudy designates this enduring material for a maximum of 75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Shuffle and Review

The cards are color-coded by subspecialty topic on the answer side only. The script side does not indicate a topic, so you can shuffle the cards randomly for a more challenging review.

◀ **Mock Exam** that looks just like the Boards!

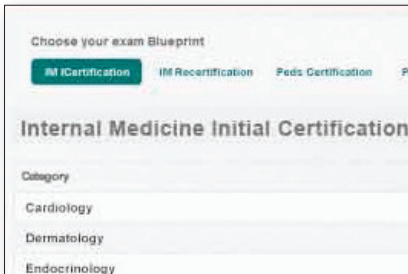

# your Board exam!

BOARD-STYLE QUESTIONS & ANSWERS

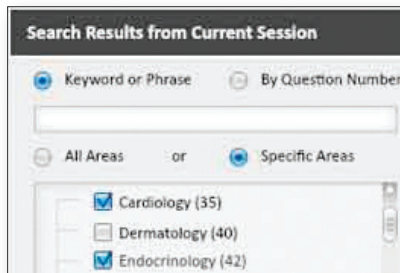

◀ **In Study Mode** you can see immediately if your answer is correct or incorrect and get a precise explanation of why.

▶ **A detailed Report Card** scores your performance by each subspecialty.

◀ **Board Exam Blueprints** show you what percentage of the exam is devoted to each topic.

▶ **Search** the entire database or narrow your search to a specific subspecialty.

◀ **Practice Test** allows you to custom-build your testing session by time, topic, or both.

**Software Requirements** Online 2013 Internal Medicine Q&A requires that you have the latest version of Adobe Flash Player installed (Flash Player 11.2 or above). Get the latest version of Flash Player <http://get.adobe.com/flashplayer>. For the best experience, we also recommend that you use the latest version of your web browser of choice. For Internet Explorer specifically, you must use version 8 or above. **Online 2013 Internal Medicine Q&A is not compatible with touchscreen devices such as smart phones or tablets.**

# Learn from national experts

## May 22–31, 2013 • Dallas, TX

### 2013 Internal Medicine Intensive Certification Board Review Course

**\$1,495** includes FREE CME!

**Special Resident and Fellow  
Pricing \$1,195**

(Must provide Program or Fellowship  
Director letter verifying status.)

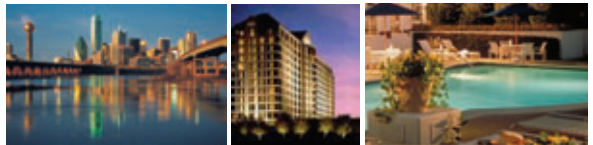

Experience the live Board review course attendees have hailed as “excellent,” “fantastic,” even “perfect.”

- **Top teachers.** Presenters drawn from a pool of recommended “best teachers,” who give you second-to-none topical expertise, proven teaching styles, and invaluable, Board-relevant questions and answers to help you gauge your knowledge of internal medicine.
- **Board-simulation exams.** Held at the beginning and end of the course, these mock exam sessions provide computer-graded scores, follow-up reviews, and invaluable experience “taking” the Board.
- **Tough topics.** Master topics like lipid management, salt balances, antibiotic choices, and interpreting joint pain. Learn to interpret ABGs, ECGs, TSH, and T<sub>4</sub> in thyroid disorders, stress tests, spirometry, crystal birefringence, and more!
- **Superlative syllabus.** Instead of a sketchy outline, you get the perfect take-home reference containing virtually every text, diagram, and table slide the speakers use so you can listen attentively rather than madly scribbling notes.
- **Study groups.** Spark new energy and creativity in your study effort with optional organized study groups. Join other attendees to review lectures, clarify key points, and drive home your learning.

### Registration and Hotel Information

# Master the most important

This dynamic new application provides interactive features to help you learn and remember the most important heart sounds.

## Heart Sounds™

3-month subscription: \$60

12-month subscription: \$200

- Hear normal heart sounds and common added sounds such as  $S_3$  and  $S_4$ , as well as the four major valvular disorders
- Anatomy cutaways, phonocardiograms, and animations, along with listening instructions and buttons to manipulate the sounds
- Cardiac cycle presentation including pressure and volume tracings, ECG, animations, and sound
- Built-in self-testing with sounds quiz and clinical cases

### Sounds and topics covered include:

**Auscultation**

**Anatomy**

**The Cardiac Cycle**

**Normal Heart Sounds**

**Added Sounds**

**Aortic Stenosis**

**Mitral Regurgitation**

**Review of**

**Systolic Murmurs**

**Aortic Regurgitation**

**Mitral Stenosis**

**Mitral Valve Prolapse**

**The Austin Flint**

**Murmur**

**Review of**

**Diastolic Murmurs**

**Clinical Cases**

**A Sounds Quiz**

**Carousel**

#### System Requirements

Interactive Heart Sounds requires that you have the latest version of Adobe Flash Player installed (Flash Player 11.2 or above). Get the latest version of Flash Player <http://get.adobe.com/flashplayer>.

For the best experience, we also recommend that you use the latest version of your web browser of choice. For Internet Explorer specifically, you must use version 8 or above.

Interactive Heart Sounds is not compatible with touchscreen devices such as smart phones or tablets.

# heart sounds!

**Added Heart Sounds: S2 Split, S3, and S4**

**S1**  
The S1 sound is made when the aortic (A2) and pulmonary (P2) valves close at the end of systole. When the volume of blood in the left and right sides of the heart is equal, the 2 valves close almost simultaneously, producing two nearly synchronous sounds that we call the S1.

**S2**  
A third heart sound can sometimes be heard during early diastole, after S2. The cadence of S1-S2-S3 is often pronounced this way: "Nee... tick-ee!" (Note: To get this cadence correct, recognize that the aortic valve is a long pause between the "nee" and the "tick," with minimal pause between the "tick" and the "ee.") The "nee" corresponds with the S1; the "tick" ... tick-ee" cadence is referred to as a "ventricular gallop." The S3 sound is often faint and is

**S3**  
A fourth heart sound can sometimes be heard during late diastole, just before S1. The cadence of S4-S1-S2 is often pronounced as: "Teeee... ooo." (Note: To get this cadence correct, recognize that the aortic valve is a long pause between the "tee" and the "ooo," with minimal pause between the first two syllables. The "tee" corresponds to the S4.)

◀ **Learn normal and added heart sounds**, such as S<sub>3</sub> and S<sub>4</sub>, as well as the 4 basic murmurs. Watch phonocardiograms and animations as you listen.

▶ **Add or remove extra sounds or murmurs** to better understand the abnormal clinical finding.

**Mitral Regurgitation — Apex**

1 HSM 2 3  
MCM

Compare Normal Compare MVP

◀ **Compare similar heart sounds** to learn the subtle differences.

**Review of Diastolic Sounds**

Compared to mitral stenosis, notice the higher sounding quality of this stenosis, which is caused by the mitral and low diastolic components.

◀ **“Content tree”** provides one-click access to selected topics along with bookmark and notes capability. Flip through the Sounds Quiz carousel to self-test as you learn.

**Clinical Case #1**

Review of systems is specifically negative for nausea, vomiting, diarrhea, fevers, chills, weight loss, night sweats, cough, wheezing, abnormal neurological symptoms, arthralgias, chest pain, rashes, hematochezia, and black stool use.

Physical exam: BP 127/76, HR 71, T 36.6, RR 16, SpO<sub>2</sub> 97% Weight 180 lbs.

General: Well-maintained adolescent in no distress.

HEENT: Normal head; clear conjunctivae, sclerae, and corneas; pupils equal, round, and reactive with normal accommodation; oropharynx normal; no palpable lymphadenopathy.

HEENT: Normal head; clear conjunctivae, sclerae, and corneas; pupils equal, round, and reactive with normal accommodation; oropharynx normal; no palpable lymphadenopathy.

CV: Regular normal sinus rhythm; no murmurs, gallops, or rubs; normal lung sounds.

Resp: Symmetric expansion; normal to percussion; normal lung sounds.

GI: No palpable lymphadenopathy.

MSK: Normal lower extremities; no deformities, no tenderness.

Genit: No edema, rashes, or chills.

Neuro: Moves all extremities well; no reflexes.

What is the most likely diagnosis?

◀ **Test yourself** by evaluating clinical cases and answering the posed questions.

# Learn to identify and manage

## Skin Signs™

3-month subscription: **\$45**  
12-month subscription: **\$150**

This compelling new interactive program is *the* resource for learning essential physical exam skills for dermatology.

- Over 300 images of dermatologic abnormalities
- Attention-holding graphics for enhanced knowledge retention
- Exclusive MedStudy animations that highlight the abnormality as you mouse over applicable text
- Built-in, customizable self-quizzing flash cards
- Bookmark manager and notes manager
- Unique, memory-enhancing “Think” screens that emphasize key dermatologic facts

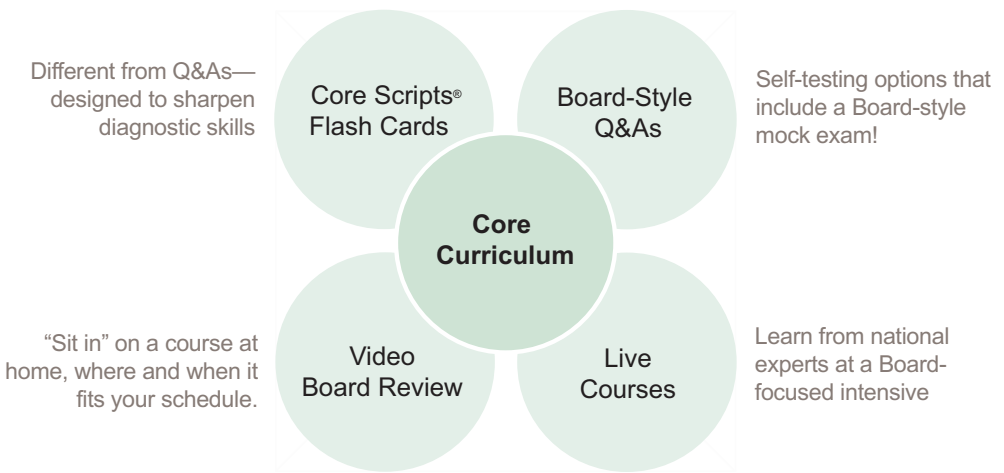

**Over 300 images** to help you identify dermatologic abnormalities.
